

Permit2Drive
For Driving Schools

Give Students and Parents an Easier Way to Track Driving Hours

Permit2Drive is a FREE mobile app that helps families track supervised driving hours for learner drivers.

How Permit2Drive Helps Your Students

- **A simple option for families:** start tracking drive hours quickly.
- **Built for real practice drives:** start, pause, and resume with ease.
- **Supports families:** multiple users and drivers can help keep records organized.
- **Easy export:** families can save and share clean driving logs.

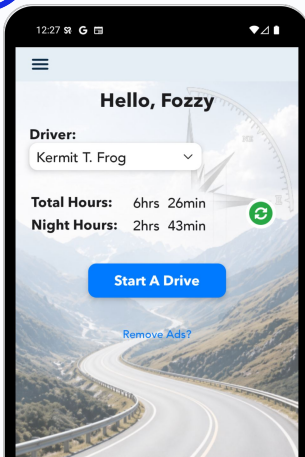

Key Features

- Start quickly
- Pause and resume drives
- Selectable backgrounds
- Multiple user & driver support
- Organized drive history
- Easy export of logs

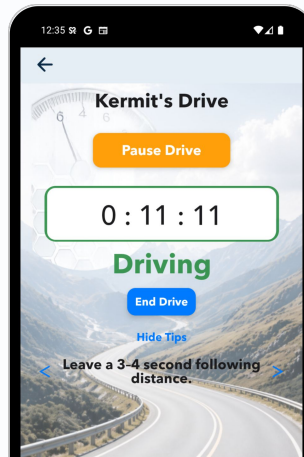

App Preview

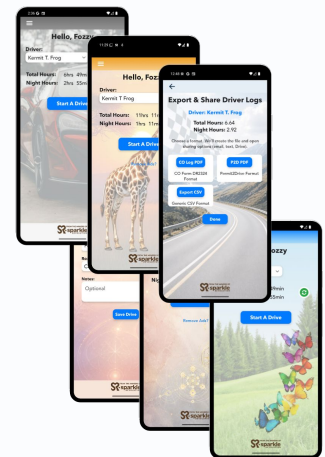

Track progress

See hours and recent drives at a glance.

Log real drives

Start quickly, then pause or resume as needed.

Export & personalize

Export logs and choose different backgrounds.

Easy to Recommend

- No setup required for the school.
- Families download the app and manage their own logs.
- A helpful option to recommend between lessons.

Get the App

Available on the App Store and Google Play.

Search for "Permit2Drive".

Want a quick demo?

I'd be happy to show how Permit2Drive works and answer questions about recommending it to students and families.
